# ULTRAglaze Made-to-Measure Gloss Doors and Panels

## Setting a High Standard

The ULTRAglaze range is the result of over 20 years of experience by highly trained craftsmen working to exceptionally high standards. Now, our European inspired ULTRAglaze range, takes kitchen and interior design to a new level of sophistication and design.

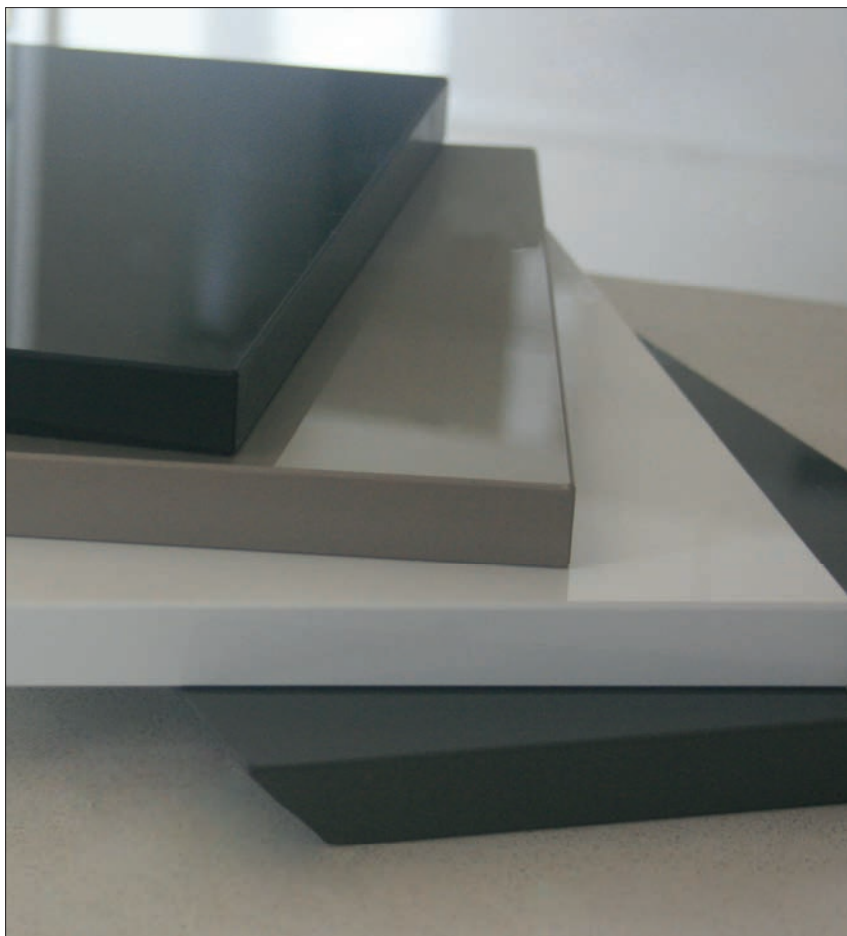

## Features Include:

- Mirror-like high gloss finish
- Colour fade & UV resistant, surpassing Australian Standards
- Easy cleaning and maintenance
- Technologically advanced sealed product preventing bacteria

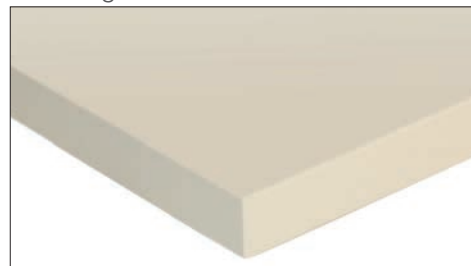

## Health and Environment

Unlike painted finished doors and panels, ULTRAglaze utilises E0 (low emissions) MDF-MR board. All components of an ULTRAglaze product are virtually emission and VOC (Volatile Organic Compound) free, especially when compared to traditional painted doors.

ULTRAglaze is the perfect choice for today's environmentally conscious customers, giving them assurance they are safe from exposure to toxic emissions within the home or work place.

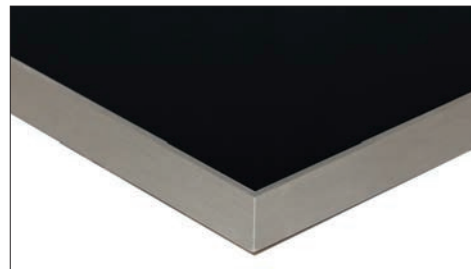

Matching Finish

Glass Bead Finish

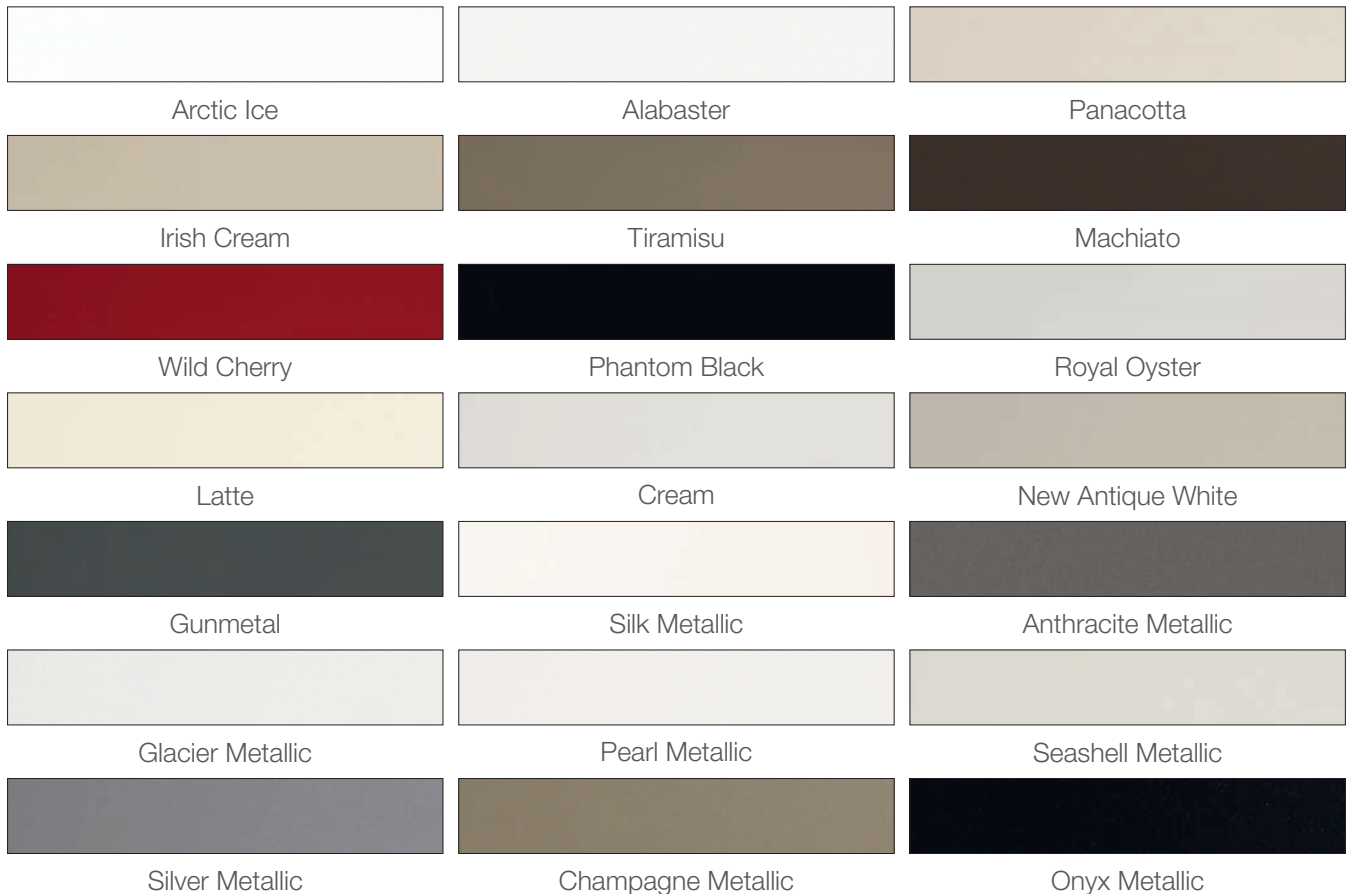

Aluminium Finish
