Titus Tekform

Innovations that improve competitiveness

Titus Tekform Strategy

Vision

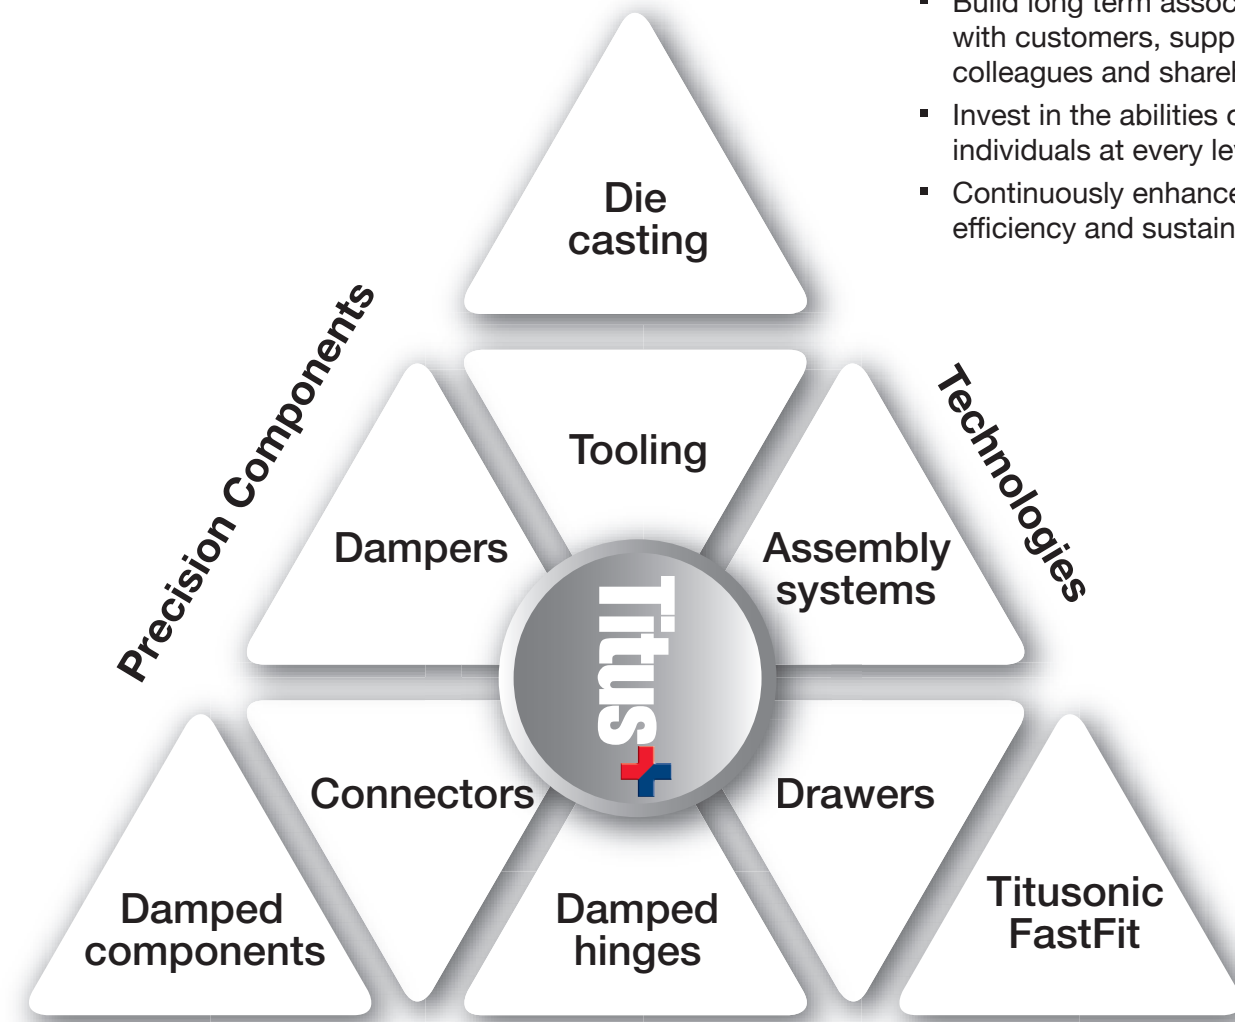

To be the supplier of choice to the Australasian kitchen manufacturing, cabinet making and shop-fitting industries.

Mission

To provide customers with solutions that improve their competitiveness.

Titus Business Philosophies and Principles

- Gain total knowledge of our customers and their markets
- Meet our customers' expectations with global consistency
- Build long term associations with customers, suppliers, colleagues and shareholders
- Invest in the abilities of individuals at every level
- Continuously enhance input efficiency and sustainability

Furniture Hardware

'Totally Integrated Engineering'

Product Design

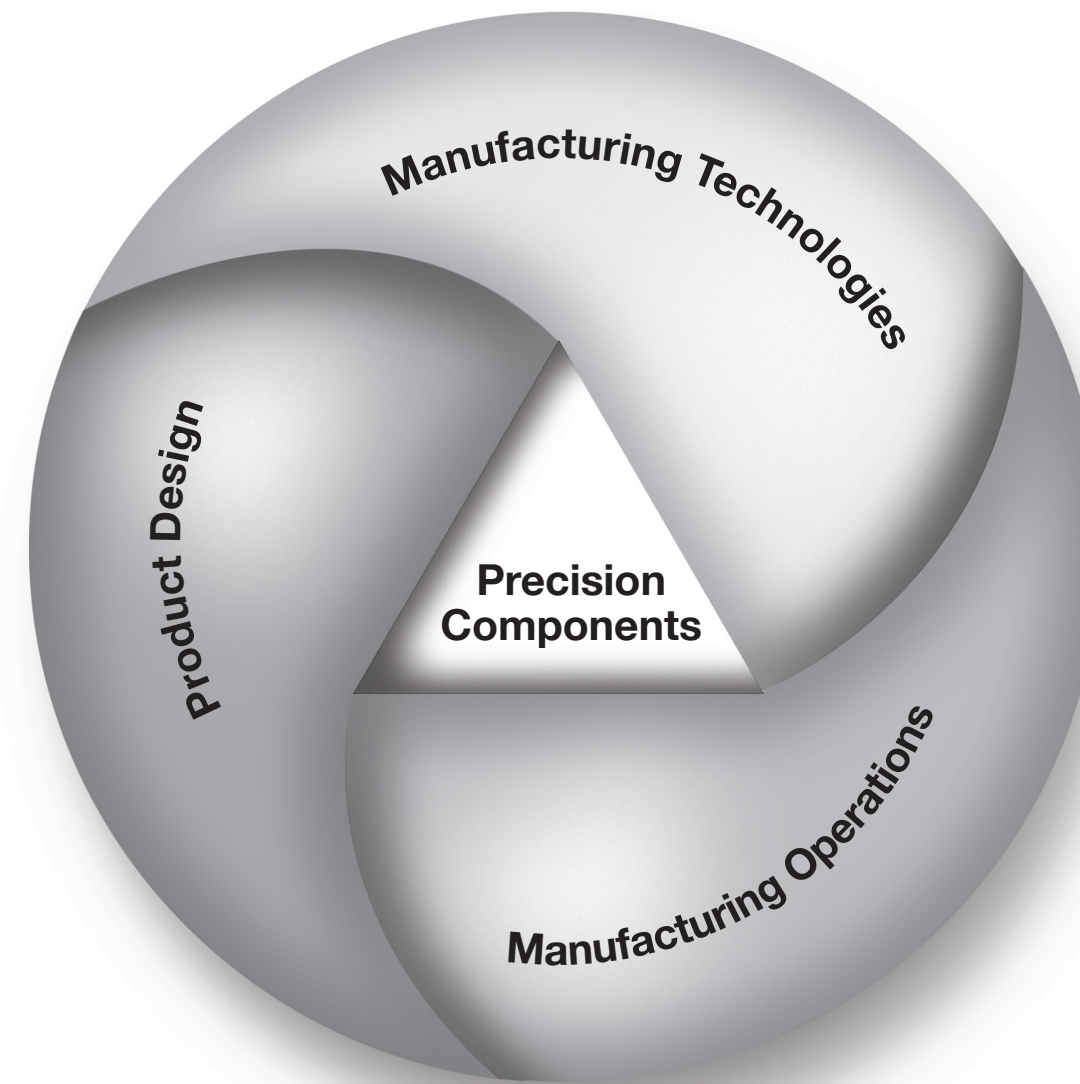

Design and engineering of unique components.

Manufacturing Technologies

To improve productivity and product quality.

Manufacturing Operations

A wide array of technologies and services required for high volume production of precision components available in-house.

Quality

Continuous Improvement

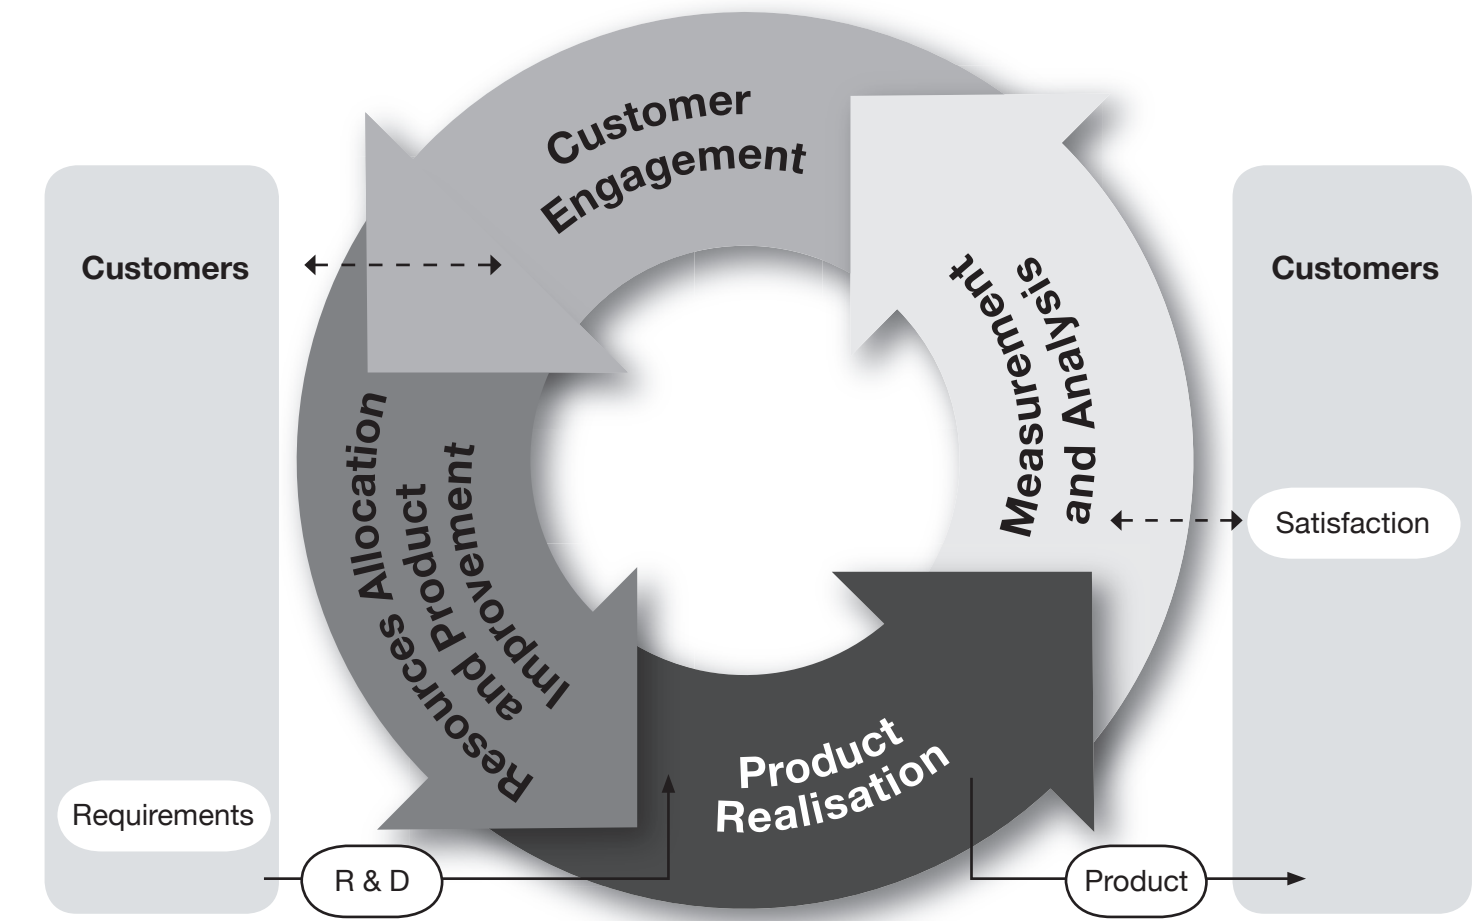

The Titus Group Mission, to improve the competitiveness of our customers, encourages us to continuously improve our products, services, processes and competencies of our employees.

Fit for Purpose

is our guiding principle.

Quality

We believe that the Titus Mission is achieved most effectively through the management of our design, manufacturing and service activities in conformance with the ISO 9001 standard for quality management. Quality has a broad meaning for us: it is our guide to the selection of materials, work, processes, internal relations and cooperation with partners.
